

Is this a **SIGNIFICANT TREE?** Should it be protected? Even if it is on your private property?

Whether a tree is naturally occurring or exotic, the Significant Tree policy would apply to protect our trees and play a vital role in maintaining the tree canopy in rural and urban environments.

The function of a Significant Tree policy would be to provide a reference guide for the City to recognise a valuable natural resource, and to establish long-term plans for the conservation, enhancement and maintenance of this natural resource into the City's local environment planning.
